RE: Mapping Agreement

Mr. McMullen,

Attached please find a copy of our Digital Information Cooperative Agreement. The total grant amount for this agreement is \$40,000. The Alabama Department of Transportation (ALDOT) will provide \$32,000 (80%) of these funds with the remaining \$8,000 (20% match) coming from the funds the county is utilizing for this project.

One key difference with our current funding agreements is that we are asking that the data from this project be made available to other government agencies. As a member of the Alabama Executive GIS Council, ALDOT has made the commitment to work with other agencies and share data in hopes of reducing redundancy and costs associated with collecting this information. An example of this would be the current Virtual Alabama application managed by the Alabama Department of Homeland Security.

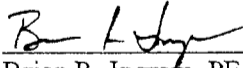

Please review this document thoroughly. If Tuscaloosa County is in acceptance of the terms of this Agreement, please sign, have it signed and sealed by a Notary, and return the Agreement and the Resolution to this office Attn: John Russell.

If you have any questions or need any further clarification, please feel free to contact John Russell at (334) 242-6139.

Sincerely,
